Useful information

Each account is configured, by default, to use the service for **40 hours or 10 GB per month** (whichever comes first). The quota can be increased at the library's public service counters, up to a maximum of 80 hours or 20 GB per month.

Two devices can be connected at the same time.

To ensure proper use of the network, the system does not allow access to pages categorized as inappropriate in terms of content or posing security risks to the computer infrastructure.

If you encounter any type of blocking or system message, please approach the library staff to try to resolve the issue.
